Collections of NASA Documents

NASA deposits its technical documents and bibliographic tools in eleven Federal Regional Technical Report Centers. Each center, located in one of the organizations listed below, is prepared to furnish the public such services as reference assistance, interlibrary loans, photocopy service, and assistance in obtaining copies of NASA documents for retention.

California: University of California,

Berkeley

Colorado: University of Colorado.

Boulder

District of Columbia: Library of Congress

Georgia: Georgia Institute of Technology.

Illinois: The John Crerar Library, Chicago Massachusetts: Massachusetts Institute

of Technology, Cambridge

Missouri: Linda Hall Library, Kansas City New York: Columbia University, New York

Pennsylvania: Carnegie Library of

Pittsburgh

Texas: Southern Methodist University.

Dalla:

Washington: University of Washington,

Seattle

NASA publications are currently being forwarded to the public libraries in the cities listed below:

California: Los Angeles and San Diego

Colorado: Denver Connecticut: Hartford Massachusetts: Boston Michigan: Detroit

Minnesota: St. Paul and Minneapolis

Missouri: Kansas City and St. Louis New Jersey: Trenton New York: Brooklyn, Buffalo, Rochester, and

New York

Ohio: Cleveland, Cincinnati, Dayton, Toledo.

and Akron

Oklahoma: Oklahoma City

Tennessee: Memphis

Texas: Fort Worth and Dallas

Washington: Seattle Wisconsin: Milwaukee

In addition, NASA regularly sends its publications to the Enoch Pratt Free Library in Baltimore. Maryland, and the Wilmington Institute Free Library, Wilmington, Delaware.

An extensive collection of NASA and NASA-sponsored scientific and technical publications available to the public for reference purposes is maintained at the Technical Information Service, American Institute of Aeronautics and Astronautics, 750 Third Avenue, New York, New York 10017.

POSTMASTER:

If Undeliverable (1 Postal Manual) D

"The aeronautical and space activities of the United States shall be conducted so as to contribute . . . to the expansion of human knowledge of phenomena in the atmosphere and space. The Administration shall provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof."

- NATIONAL AERONAUTICS AND SPACE ACT OF 1958

NASA SCIENTIFIC AND TECHNICAL PUBLICATIONS

TECHNICAL REPORTS: Scientific and technical information considered important, complete, and a lasting contribution to existing knowledge.

TECHNICAL NOTES: Information less broad in scope but nevertheless of importance as a contribution to existing knowledge.

TECHNICAL MEMORANDUMS: Information receiving limited distribution because of preliminary data, security classification, or other reasons.

CONTRACTOR REPORTS: Scientific and technical information generated under a NASA contract or grant and considered an important contribution to existing knowledge.

TECHNICAL TRANSLATIONS: Information published in a foreign language considered to merit NASA distribution in English.

SPECIAL PUBLICATIONS: Information derived from or of value to NASA activities. Publications include conference proceedings, monographs, data compilations, handbooks, sourcebooks, and special bibliographies.

TECHNOLOGY UTILIZATION
PUBLICATIONS: Information on technology
used by NASA that may be of particular
interest in commercial and other non-aerospace
applications. Publications include Tech Briefs,
Technology Utilization Reports and Notes,
and Technology Surveys.

Details on the availability of these publications may be obtained from:
